

INTERNAL CAREER OPPORTUNITY

Regional Manager – Medical Device Reprocessing & Infection Control

LOCATION: Flin Flon, The Pas, or Thompson, MB
(Position can be based at any of the three sites)

SUMMARY

The Regional Manager MDR & IC is responsible for providing regional coordination for the reprocessing and sterilization program within the Northern Health Region (NHR). Provides regional leadership in Infection Control and Staff Health Programs. Reports directly to the Executive Director of the incumbent's home site. Collaborates with all Executive Directors, Regional and Patient Care Managers. Assists with planning and supporting the Region with quality reprocessing of reusable medical devices in collaboration with the respective Program Director/Managers. Provides direction for the program as a whole, adhering to the Canadian Standards Association (CSA) and Infection Prevention and Control Standards, including strategic planning, allocation of resources, development of program standards, integration of quality improvement, risk management, patient safety and utilization management systems, and support of education and research.

This position requires provision of service and travel to outlying communities.

QUALIFICATIONS

- Baccalaureate Degree in Nursing (other combinations of education and experience may be considered)
- Current active practicing registration with College of Registered Nurses of Manitoba (CRNM)
- Successful completion of a recognized accredited Sterile Reprocessing Program required or willingness to complete within one (1) year of commencing employment
- Must have a valid Manitoba Class V driver's license, access to a vehicle, and willingness to travel within the region and province year round
- Excellent knowledge of Windows based programs (Microsoft Word, Excel, Outlook) and Internet
- Recent clinical experience in Surgical Program operations
- Experience in Reprocessing and Sterilization area
- Recent experience in Infection Control
- Two (2) years' supervisory/management experience
